

Pitch Deck

Quentangle Systems

Building tomorrow's quantum applications, today.

About us

Quentangle is a start-up which works predominantly on quantum communication and computing. The organisation has a team of renowned quantum academics and applied physicists.

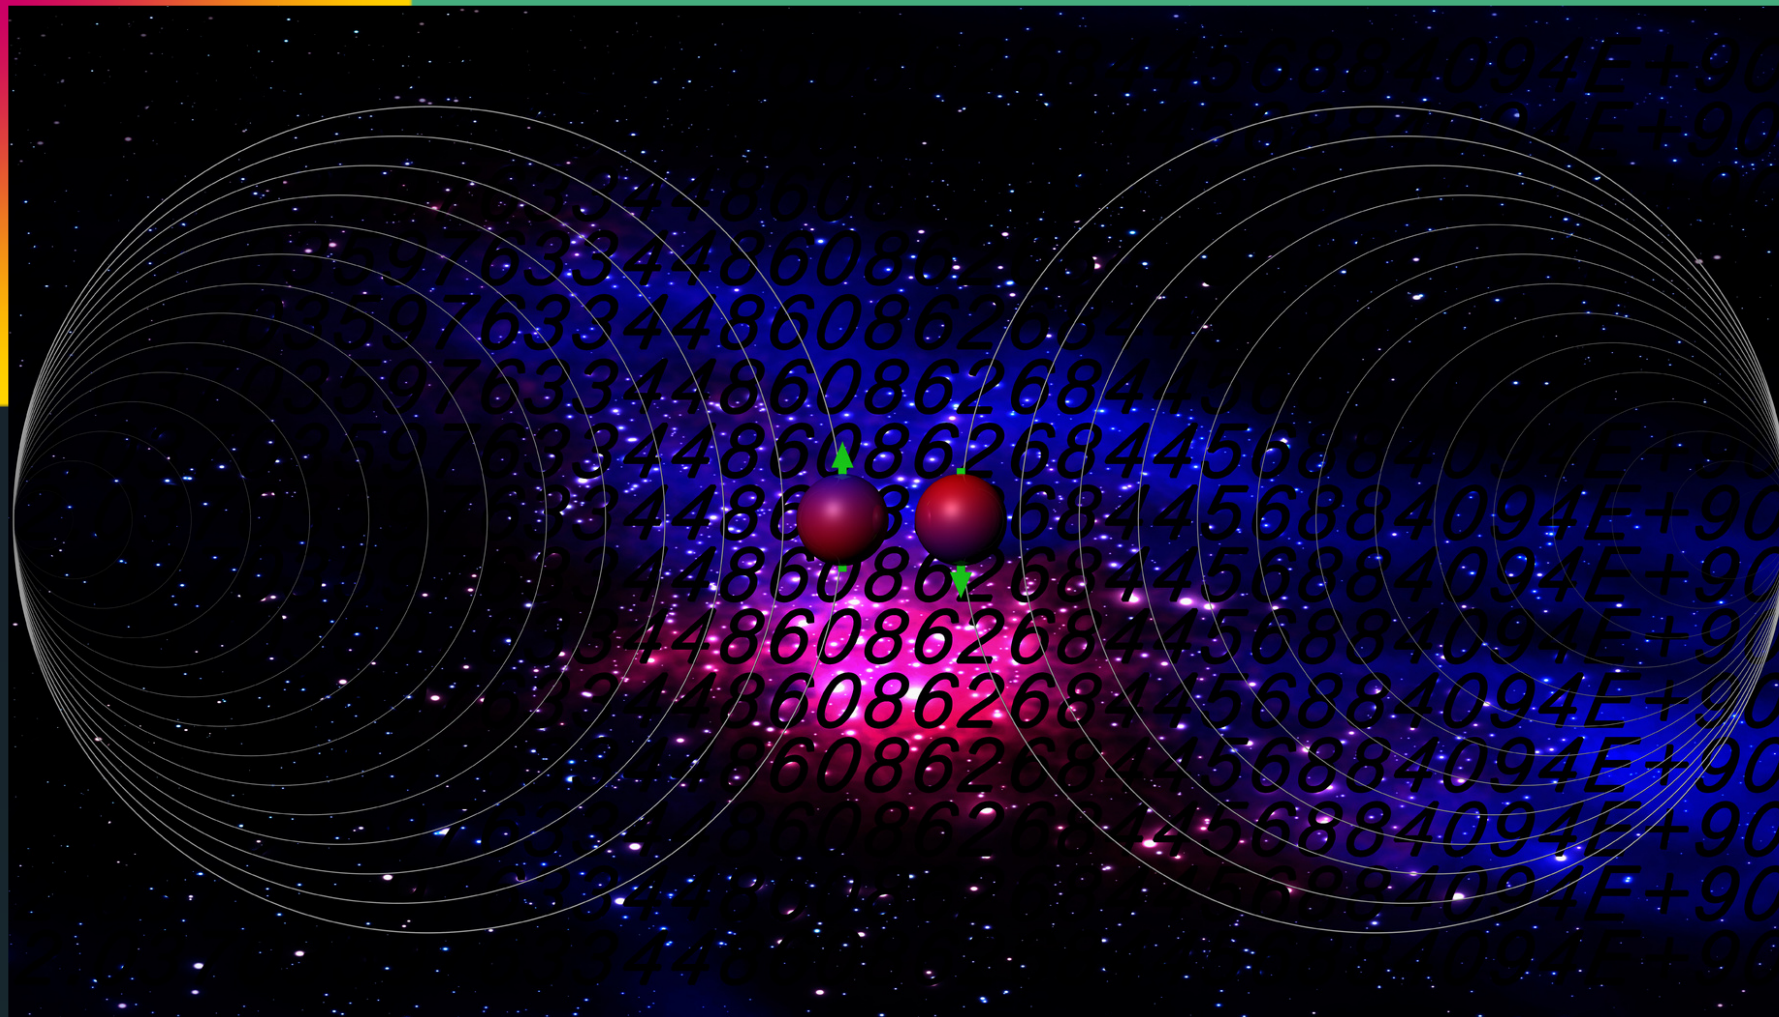

What we do

The start-up mainly focuses on working on three premises, they are.

1. Quantum communication.
2. Quantum Simulations.
3. Quantum Security.

Quentangle has a detailed roadmap of building multiple simulations for various industries. We are also in the process of collaborating with a lot of start-ups in the quantum ecosystem.
