

Pitch Deck

Suppa App

SUPPA

The Suppa Networking app is perfect for solo travellers, people who live alone or anyone wanting to make new social connections. The app is designed to target young people using food as a connection point. The app will facilitate like-minded professionals, artists, skilled people or similar interests to make new social connections through this app.

About us

Networking in the heart of London.

Use the Suppa app to spice-up your coffee breaks by meeting with a likeminded Londoner for a quick latte; or why not treat yourself to a gourmet meal with a kindred spirit?

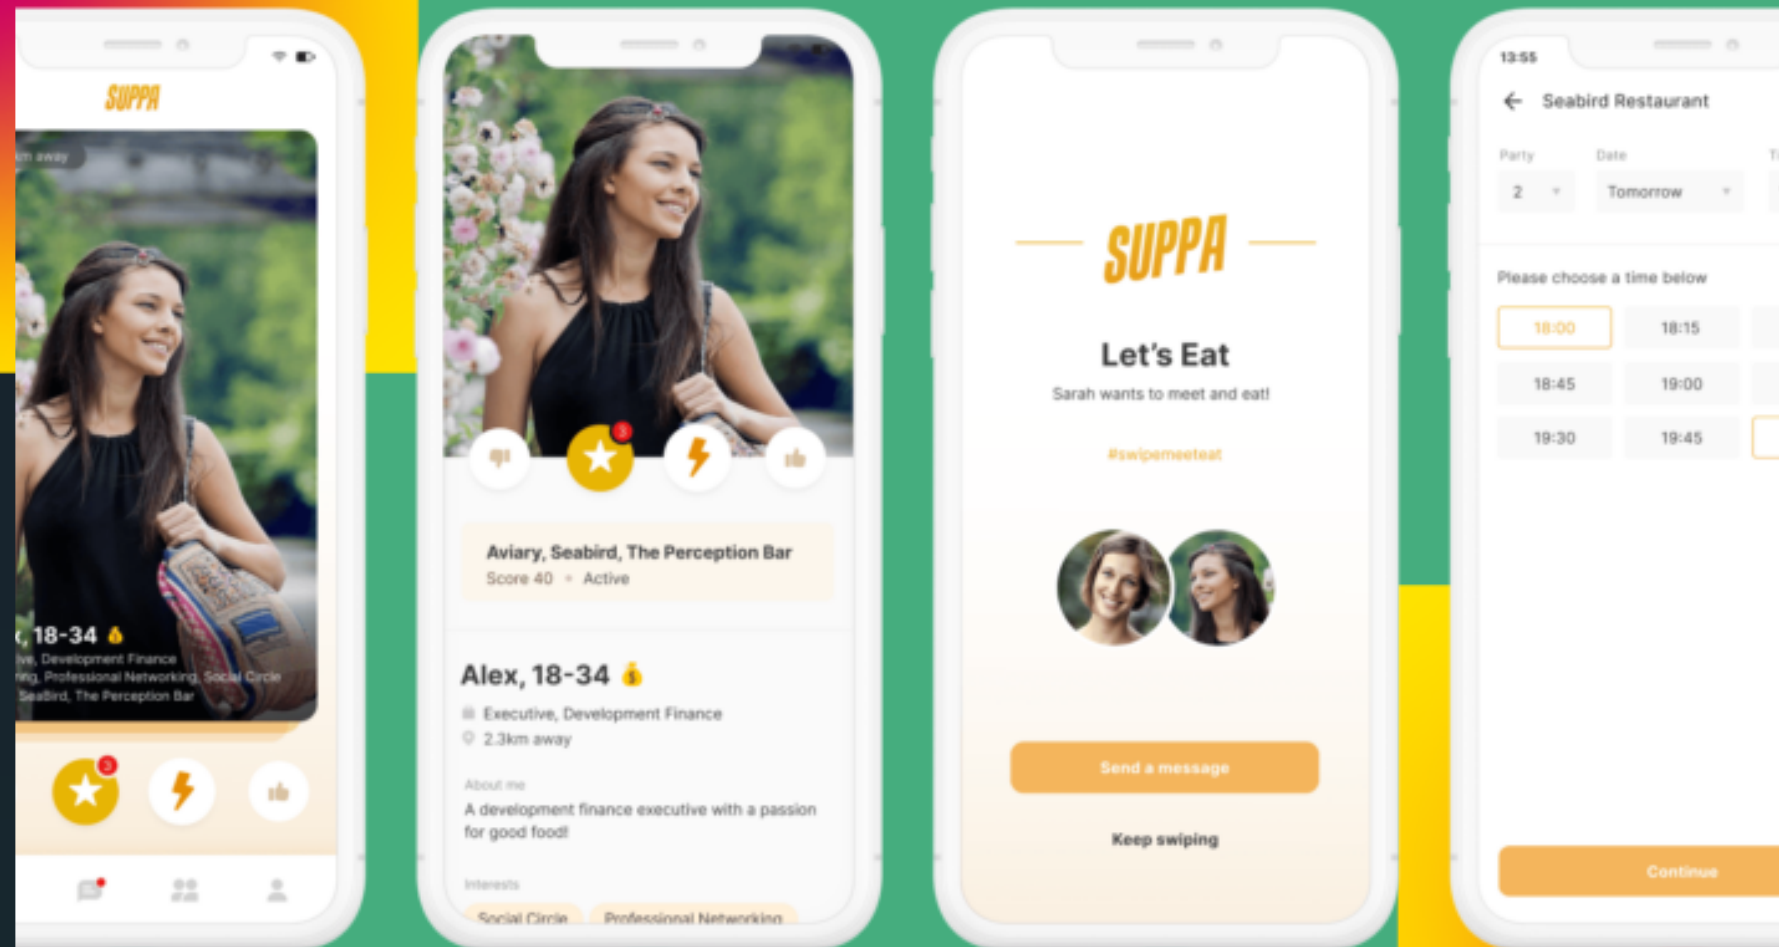

Our app makes it quick and easy to see when friends and matches are nearby and available to grab food meaning you'll never miss an opportunity to mingle.

What we do

Find a new yoga buddy, tennis partner or business associate using the Suppa app.
We're here to help you switch off the screens and meet new people in person – just the way nature intended!

Watch your social circle (and belly) grow as your matches turn into friends!
